

West Sound STEM SHOWCASE

Saturday, April 26 ♦ 10am - 3pm @ Kitsap Mall, Silverdale

Booth Hosts Needed!

Science
Technology
Engineering
Math

Are you an organization, business, professional, or student that has created a STEM (science, technology, engineering, math) project, works in a related field, or is a leader in STEM innovation?

Be a part of the **2nd Annual West Sound STEM Showcase!** On Saturday, April 26, the Showcase will present **science, technology, engineering, & math** principles at a fun, interactive event. Join us at the Kitsap Mall as dozens of area organizations host booths with hands-on activities to engage youth of all ages. This year, the STEM Network will host a catapult challenge! Last year's hits included underwater vehicle exploration, robotics, rocket launches, bridge building, field medicine, egg drops, animals and more. The sky is the limit! Come share your idea and help area youth get excited about **science, technology, engineering, & math** in action!

No cost to host a booth! No cost for participants!

For more information, contact Corinne at Corinne.beach@navy.mil or call 360-627-3928.

Booth registration and additional information can be found at www.westsoundstem.org.

Hosted by West Sound STEM Network
in partnership with Olympic Educational Service District 114
